

Tramper postpones participation of Fruit Logistica and Anuga FoodTec

Due to the current COVID situation worldwide and the uncertain forecasts, the board of Tramper Technology has taken the decision to cancel their participation to the 2022 editions of the Fruit Logistica and Anuga FoodTec.

Therefore, we will postpone our participation to the following exhibitions in 2023 (Fruit Logistica) and 2024 (Anuga FoodTec), in the hope that better times are ahead of us.

Although our participation to the trade fairs have been postponed, we still invite (potential) customers for a visit to our factory to demonstrate our innovative packaging solutions.

Interested in one of our products, or looking for advice about your packaging process?

Our sales team will be happy to talk to you!
